For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

The sport compact performance market is hot and getting hotter - and while the Honda Civic and Acura Integra have long been the dominant players in the market, a newcomer is emerging as a popular car for performance modifications - The Ford Focus. Well-built, inexpensive, good looking, and easy to modify, the Focus is quickly catching the Hondas in terms of market popularity. This book shows Focus owners exactly what it takes to improve their car's performance, from simple modifications like installing a new air intake to radical mods like installing a turbocharger. The author also shows what those modifications can do, with before-and-after dyno tests for each modification. There's also extensive info on suspension and brake modifications for better handling and braking. It's a one-stop shop for those who want a sharper, faster Focus. Over the past few years, e-cigarettes such as Juul have taken over the market, rising in popularity among smokers and retailers. Originally marketed as a safer alternative to smoking, vaping may actually not be as harmless as first believed. As scientists debate the relative merits of e-cigarettes, policymakers have had to contend with a new reality: the rise in vaping among teenagers. The articles in this book evaluate the increasing prominence and regulation of the vaping industry, and media literacy questions and terms will enlighten readers to how news coverage of the topic has developed.
