Women's writing in Cameroon has so far been dominated by Francophone writers. The short stories in this collection represent the yearnings and vision of an Anglophone woman, who writes both as a Cameroonian and as a woman whose life has been shaped by the minority status her people occupy within the nation-state. The stories in Your Madness, Not Mine are about postcolonial Cameroon, but especially about Cameroonian women, who probe their day-to-day experiences of survival and empowerment as they deal with gender oppression: from patriarchal expectations to the malaise of maldevelopment, unemployment, and the attraction of the West for young Cameroonians. Makuchi has given us powerful portraits of the people of postcolonial Africa in the so-called global village who too often go unseen and unheard.

Use the successful First Aid formula to pass the National Board Dental Exam Part II with flying colors! The new "bible" for NBDE Part II preparation! This psycho-anthropological and socio-cultural novel logically and succinctly x-rays the foundations and raison d'être of patriarchy through the implied questions - Is wealth the basis of patriarchy? Have women any role in the system? And how far can a patriarch protect his lineage from alien blood? The extremely wealthy father of eight daughters protagonist Ndi, says yes, to the first question; no, to the second; and in the third questions he says, through dogged pursuit of looking for a male heir by any means; but his lone son whom he unknowingly begot in a remote village in his early life and whom he accidentally stumbled upon and adopted as his heir in his odyssey of looking for a male heir through a series of marriages, says no, to the first question; yes, to the second and to the third question, he says fate is the umpire; and succeeds in convincing his father that he is right.

Arabic With Husna is a first of its kind, comprehensive Qur'anic Arabic curriculum that leverages best teaching practices based on experience with thousands of students, enhanced study materials designed to optimize student learning and most importantly video resources in order to ensure a rich, engaging, meticulously organized and result driven learning experience for children and adults alike. This curriculum was put together by a team of educators in collaboration with Ustadh Nouman Ali Khan at the Bayyinah Institute. Book 1 is a thorough study of the Ism (noun) in Arabic. At the end of the book, a student will be able to describe in detail the meaning and properties of each Ism in the first ten ayaat of Surah Kahf.

Subject-based chapters feature more than 300 MCQs and provide detailed coverage of topics which commonly feature in undergraduate exams. Answers and detailed explanations help to consolidate understanding.

In this pioneering study, Hisham Aidi takes us into the musical subcultures that have emerged among Muslim youth worldwide over the last decade. He shows how music - primarily hip-hop, but also rock, reggae, Gnawa and Andalusian - has come to express a shared Muslim consciousness in face of War on Terror policies

The problems of international communication and linguistic rights are recurring debates in the present-day age of globalization. But the debate truly began over a hundred years ago, when the increasingly interconnected world of the nineteenth century fostered a desire for the development of a global lingua franca. Many individuals and social movements competed to create an artificial language unencumbered by the political rivalries that accompanied English, German, and French. Organizations including the American Philosophical Society, the International Association of Academies, the International Peace Bureau, the Comintern, and the League of Nations intervened in the debate about the possibility of an artificial language, but of the numerous tongues created before World War II, only Esperanto survives today. Esperanto and Its Rivals sheds light on the factors that led almost all artificial languages to fail and helped English to prevail as the global tongue of the twenty-first century. Exploring the social and political contexts of the three most prominent artificial languages—Volapük, Esperanto, and Ido—Roberto Garvía examines the roles played by social movement leaders and inventors, the strategies different organizations used to lobby for each language, and other early decisions that shaped how those languages spread and evolved. Through the rise and fall of these artificial languages, Esperanto and Its Rivals reveals the intellectual dilemmas and political anxieties that troubled the globalizing world at the turn of the twentieth century.
