~~QuizMoz—Earth's Dynamic Crust and Interior Test~~

The Earth has three layers: the crust, the mantle, and the core. The crust is made of solid rocks and minerals. Beneath the crust is the mantle, which is also mostly solid rocks and minerals, but punctuated by areas of a semi solid magma. At the center of the earth is the hot dense metal core. Earth's layers constantly interact with each other, and the crust and upper portion of the mantle ...
