Please, God, no more hard thing. Nicki Kozlarz knows what it's like to whisper those words to God. She understands what it feels like to be flooded by hopelessness and hard situations, wondering if it will ever stop. Hard circumstances often stir something so destructive in a soul: doubt. Through the painful loss of her mom to a brain tumor and her brother to suicide, she has learned that if doubt is left undaelt with, it can cause the presence of unbelief to flood our lives—to the point that faith becomes unrecognizable. In the midst of her pain, Nicki looked through the lens of the biblical account of Noah and discovered five decisions a person can make to help deflect the destruction of doubt. When you are wrestling with doubt and fighting back hopelessness, Flooded will help you: • Quiet the fear that God won't come through by discovering the difference between wishful thinking and biblical hope. • Resist the urge to control the uncontrollable by finding peace in between the problem and the promise. • Find the familiar faithfulness of God in His Word when it feels like nothing is normal and everything is falling apart. The reality of hard times holds a decision for each of us to find hope. And the decision to find it is yours. But you don't have to do it alone. It's time to rise above doubt, together.

The Drug Abuse Counselor Pasbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to; Principles and practices of alcohol and drug abuse treatment; Addition counseling, including dynamics of client/worker relationships; Principles and practices of crisis intervention; Preparing written material; and more.

A blend of theory and counseling techniques, this comprehensive text provides readers with an overview of several major counseling theories and their application to substance use disorders and addiction counseling, along with related techniques and interventions. Chapters incorporate cutting edge evidenced-based research on neuroscience, psychological and sociocultural theories explaining the biopsychosocial influences of substance use disorders, and examine how substance use disorder risk factors can be utilized when assessing someone who may have a substance use disorder. The text additionally helps apply theory to practice, offering intervention techniques and using accessible case studies. Throughout the text, highlighted learning opportunities and key terms further help students to practice and apply the theories, interventions and techniques that the book discusses. Mental health professionals, undergraduate and graduate students alike will benefit from this deft mix of prominent theory, innovative research and accessible case studies.
