Further Reading: **Difference Between Circulatory System and Lymphatic System**

Difference Between Circulatory and Respiratory System ...

No circulatory system. Circulatory systems are absent in some animals, including flatworms. Their body cavity has no lining or enclosed fluid. Instead a muscular pharynx leads to an extensively branched digestive system that facilitates direct diffusion of nutrients to all cells. The flatworm's dorso-ventrally flattened body shape also restricts the distance of any cell from the digestive system or the exterior of the

organism.
