While the Great War raged, Australians were twice asked to vote on the question of military conscription for overseas service. The recourse to popular referendum on such an issue at such a time was without precedent anywhere in the world. The campaigns precipitated mass mobilisation, bitter argument, a split in the Labor Party, and the fall of a government. The defeat of the proposals was hailed by some as a victory of democracy over militarism, mourned by others as an expression of political disloyalty or a symptom of failed self-government. But while the memory of the conscription campaigns once loomed large, it has increasingly been overshadowed by a preoccupation with the sacrifice and heroism of Australian soldiers - a preoccupation that has been reinforced during the centennial commemorations. This volume redresses the balance. Across nine chapters, distinguished scholars consider the origins, unfolding, and consequences of the conscription campaigns, comparing local events with experiences in Britain, the United States, and other countries. A corrective to the 'militarisation' of Australian history, it is also a major new exploration of a unique and defining episode in Australia's past.

Thoroughly revised and updated to reflect the most current trends and developments in the field, *Victimology: Theories and Applications*, Second Edition provides a comprehensive introduction to the study of victimization, crime typologies, and the impact of crime on victims, offenders, and society at large. Each chapter provides an overview of the scope, law, and victim response to crime and concludes with a summary and discussion questions to ensure comprehension. An overview of the issues impacting victims of a wide variety of traditional and contemporary crimes are examined, including child maltreatment, intimate partner violence, bullying, elder abuse, cybercrime and hate crimes. The history and theories of victimology are explored, as well as definitive laws and policies, strategies for intervention, and future research areas. This Second Edition offers a balance between theory and application and will prepare readers to work with victims, offenders, and the justice system. New to the Second Edition: -Contains new contemporary case studies, including the cases of IMF chief Dominique Strauss-Khan, Casey Anthony, and the Senator Scott Brown case as illustrating non-disclosure of childhood abuse for 40 years. -Includes an analysis on the Casey Anthony case from the perspective of the jury in the chapter on justice systems. -A new chapter includes discussions on domestic and international databases and studies, including UCR, NCVS, StatsCan, Justice Canada, Interpol, and WHO reports on victimization. -Includes a new chapter on child abduction and exploitation including a discussion of child trafficking. -All tables and figures have been updated to reflect the most current data. -Every new printed copy is packaged with full student access to the companion website, which features a variety of engaging and interactive study tools. Key Features: -Offers a balance between theory and the research and practice-oriented tools to prepare readers to work with victims, offenders, and the justice system. -Covers current topics including: human trafficking, victims of gang violence, bullying, victims of terrorism, victims of cybercrime, property crimes, corporate crimes, workplace violence, racial profiling and disproportionate penalties.

This textbook provides interventional cardiologists, endovascular interventionalists, and physicians in training with a comprehensive resource on the prevention and management of complications in interventional cardiology. The book focuses specifically on risk factors, prevention, and management with conventional and/or with bailout techniques and devices. It includes many images of common and rare complications and of devices. The first section, on general principles, includes quality assurance, training requirements, legal considerations, adjunctive pharmacotherapy, and conscious sedation. Subsequent sections cover general complications of invasive procedures and complications of specific coronary interventions, noncoronary cardiac interventions, peripheral vascular procedures, pediatric interventions, and electrophysiology procedures. A companion website includes videos of over 30 complications and bailout techniques.

Over the last century, the Everglades underwent a metaphorical and ecological transition from impenetrable swamp to endangered wetland. At the heart of this transformation lies the Florida sugar industry, which by the 1990s was at the center of the political storm over the multi-billion dollar ecological "restoration" of the Everglades. *Raising Cane in the Glades* is the first study to situate the environmental transformation of the Everglades within the economic and historical geography of global sugar production and trade. Using, among other sources, interviews, government and corporate documents, and recently declassified U.S. State Department memoranda, Gail M. Hollander demonstrates that the development of Florida's sugar region was the outcome of pitched battles reaching the highest political offices in the U.S. and in countries around the world, especially Cuba—which emerges in her narrative as a model, a competitor, and the regional (other) to Florida's "self." Spanning the period from the age of empire to the era of globalization, the book shows how the "sugar question" (a label nineteenth-century economists coined for intense international debates on sugar production and trade) emerges repeatedly in new guises. Hollander uses the sugar question as a thread to stitch together past and present, local and global, in explaining Everglades transformation.

Stone Barrington and Holly Barker pursue a master spy and murderer in this thriller in the #1 New York Times bestselling series that gets hotter by the minute! Rogue agent Teddy Fay has been considered dead for some time now. But President Will Lee thinks Teddy may still be alive. In a top-secret Oval Office meeting, Stone Barrington learns that he and his cohorts, Holly Barker and Dino Bacchetti, are being sent to the beautiful Caribbean island of St. Marks, courtesy of the CIA, to track down Teddy once and for all. St. Marks is a vacationers' paradise, but its luxurious beach clubs and secluded mountain villas are home to corrupt local politicians and more than a few American expats with murky personal histories. Stone and Holly soon discover that in St. Marks, everyone is hiding something—and that Teddy Fay may just be hiding in plain sight.
