Purpose of The School of Leaders A business, organization, or in this case, the Cursillo movement, is only as good as its leaders. As the Leaders Manual states, "The School of Leaders, like a school of fish, is the gathering together of leaders (or fish). The School is designed to accentuate the Cursillo Movement..."

As the Leaders Manual states; " If the purpose of the Cursillo Movement is to find, lead to conversion and sustain evangelizers in their task of evangelizing the world, then the most difficult task will always be to sustain them. "

Since its inception in Roman Catholic Spain in the 1940s, the Cursillo movement has been a steadily-growing phenomenon and has spread into many Protestant churches worldwide under various names. The weekend initiation is often a deeply-felt experience that boasts of many conversions and recommitments. Yet in this comprehensive analysis of Cursillo the author finds theological concerns, questions about the propriety of the methods, and complications such as disaffection from the local church, transfer of loyalty to the Cursillo community, and a significant drop-out rate, raising implications for similar, spiritual movements. Interviews with former Cursillo participants confirmed many of these conclusions but also raised a challenge to the church: many Cursillo participants do not perceive vital faith in their local church. The author suggests that the Cursillo attempts to imitate the work of the church in an extraordinary form and that this might initiate some of the unhelpful results. The church would be better served by seeking to revitalize its ordinary ministries of Word and sacrament, prayer, community, and Sabbath observance.

Cursillo History & Memory depicts one of the most unique and yet most unknown events in our recent history: The Cursillos in Christianity Movement. Francisco Forteza ' s book, avoids both the " apologetic tone " and the " cold historicism " ; it can be classed as testimonial literature. It openly reveals the human condition, not exempt from errors, intrigues and manipulations that have occurred in the Cursillo Movement, while claiming at the same time the validity of what, in the author's language is understood as "The Foundational Charism."

The internationally growing Cursillo movement, or "short course in Christianity," founded in 1944 by Spanish Catholic lay practitioners, has become popular

among American Catholics and Protestants alike. This lay-led weekend experience helps participants recommit to and live their faith. Emphasizing how American Christians have privileged the individual religious experience and downplayed denominational and theological differences in favor of a common identity as renewed people of faith, Kristy Nabhan-Warren focuses on cursillistas--those who have completed a Cursillo weekend--to show how their experiences are a touchstone for understanding these trends in post-1960s American Christianity. Drawing on extensive ethnographic fieldwork as well as historical research, Nabhan-Warren shows the importance of Latino Catholics in the spread of the Cursillo movement. Cursillistas' stories, she argues, guide us toward a new understanding of contemporary Christian identities, inside and outside U.S. borders, and of the importance of globalizing American religious boundaries.
