Babylock Evolution Insirational Guide
The Evolution is the only serger with 8 threads, providing more stitch combinations than ever before - 87 in all! Baby Lock was also the first in the world to combine overlocking and cover stitching in the same operation, creating two machines in one! Cover Stitch Chaining Off

Join The Baby Lock Serger rEvolution
A serger is kind of a knitting process that loops two, three or four threads together to create a stitch. Your Baby Lock evolve operates with one or two needles in the overlock position and one or two loopers to form an overlock stitch.

This is the most comprehensive and up to date book about sergers available covering all skill levels from basic to expert. Although advanced topics are covered the book is easy to navigate and understand. Many people find threading a serger to be difficult, so an entire chapter is dedicated to threading and basic use. The book goes on to cover advanced topics such as troubleshooting, adjustment, maintenance & repair. Covered in-depth are adjusting tension, stitches, decorative stitches, needles, feet, thread and more. From home sergers to industrial overlock machines and coverstitch machines many of the latest machines are featured with insights on features, capabilities and best use for each model or class of machine. Buying a serger can be frustrating and time consuming because of the overwhelming number of features and types of machines that are available. The buying recommendations will help you cut through the confusion and figure out what features you really need. Most people have a love/hate relationship with their serger. Everything is great when the machine is working good but most people hate them when frustrating problems arise. This book will empower you to eliminate the hate part of the relationship and put you in control of the machine. In depth sections on adjusting tension and troubleshooting will help you handle most problems (and know which problems not to tackle). Above all sergers are creative tools. If you know and understand the tools you can use them efficiently and effectively. For sewing machines check out our top selling companion book "The Sewing Machine Master Guide" and for sewing machine basics "The Sewing Machine Quick Guide." The Serger and Overlock Master Guide was written as both an eBook and print book using optimized reflowable formatting for a perfect presentation on small or large devices. Everything from a basic eBook reader or Kindle to a large screen PC or Mac is supported. Why the low price? Electronic publishing and print-on-demand is used with distribution to more than 80 countries worldwide. The pricing reflects this new technology and distribution model.

Pro wrestler and political commentator Tyrus goes deep into his wild but triumphant life story, from his painfully dysfunctional upbringing to bodyguarding for Snoop Dogg, to becoming a wrestling icon and one of the most provocative on-air voices today. " I loved Just Tyrus. I read it in one day and cheered for him when I got to the end. Tyrus has written a book that is at once raw, tender, intelligent, candid, and hilarious. Tyrus took a very rough start to his life and used perseverance, confident humility, and accountability to land firmly on his feet. What a triumph! " —Dana Perino, former White House Press Secretary to George W. Bush and Fox News anchor and host The product of a 1970s mixed marriage, George Murdoch learned to fight early in life, fending off both race-baiting bullies and the demons of a dysfunctional home. Couch surfing all through high school and most of college, the quick-witted, sharp-tongued giant played football, ran drugs, and bounced at clubs to try to survive. After a false start with the WWE, he eventually became Snoop Dogg ' s bodyguard and traveled the world with the hip hop legend, biding his time and honing his rap. When the WWE urged him to return, George became " Brodus Clay " and, for the next several years, reinvented himself numerous times under the watchful mentorship of the legendary Dusty Rhodes, " the American Dream. " He was eventually christened " Tyrus, " and shortly after, a chance social media encounter with Greg Gutfeld at Fox News resulted in Tyrus finding a new skill: sage social commentator. Ferociously funny, blunt, and tenacious, Just Tyrus traces his unlikely and spectacular rise. As always with Tyrus, it ' s in-your-face and offers no apologies. " George aka Tyrus aka the realest most blunt human being on the face of planet earth. Never had a problem telling you what was on his mind or how he felt, good or bad. Tough exterior but a heart of gold. Front liner, great friend, and excellent coach for my youth football team. His work ethic is obvious, taking him from football to bodyguard to pro wrestler to a superb personality on Fox News. I ' ve seen him climb the ladder of success, and I ' m happy that I was along for the journey. " —Snoop Dogg

Learn How To Use Your Serger From the Experts
May 3rd, 2018 - I have another serger a Viking and it ...

The smartphone is often literally right in front of our nose, so you would think we would know what it is. But do we? To find out, 11 anthropologists each spent 16 months living in communities in Africa, Asia, Europe and South America, focusing on the take up of smartphones by older people. Their research reveals that smartphones are technology for everyone, not just for the young. The Global Smartphone presents a series of original perspectives deriving from this global and comparative research project. Smartphones have become as much a place within which we live as a device we use to provide " perpetual opportunism ", as they are always with us. The authors show how the smartphone is more than an " app device " and explore differences between what people say about smartphones and how they use them. The smartphone is unprecedented in the degree to which we can transform it. As a result, it quickly assimilates personal values. In order to comprehend it, we must take into consideration a range of national and cultural nuances, such as visual communication in China and Japan, mobile money in Cameroon and Uganda, and access to health information in Chile and Ireland — all alongside diverse trajectories of ageing in Al Quds, Brazil and Italy. Only then can we know what a smartphone is and understand its consequences for people ' s lives around the world.

Europe is often presented as a declining global power, in which red tape, incumbency interests and governance flaws hamper economic performance, innovation and productivity. Part of this can be traced back to the inherent challenge and ambition of the European integration project; but also to external factors, including the rise of the United States as a global superpower during the past century, and the worldwide diffusion of ideas, especially in politics and economics, which were seldom originated in Europe, or tailored to its peculiar legal, economic and social traditions. Until recently, Europe has sought to carve out its model and role in global governance by mimicking many US policy approaches: shareholder capitalism, deregulation and unconstrained movement of capital. As the global community increasingly sees the rise of protectionist stances, and a growing inability to face emerging challenges such as sustainable development and the breath-taking rise of disruptive digital technologies, Europe should look at its best qualities to revamp and reclaim its position in the global order, to the benefit of all. The prospect of Brexit, while certainly not favourable for the Union, paradoxically opens up new opportunities to face emerging challenges with a greater degree of cohesion. This new book, a joint effort between Donald Kalff and a group of CEPS researchers led by Andrea Renda, aims at identifying and exploring Europe's 'hidden treasures', often neglected competitive advantages that could, if adequately nurtured, return the Old Continent to the forefront of the global order. 'Hidden treasures' are a feature of the EU economy, legal system or legal tradition that are being given insufficient attention in EU public policy, and which bear the potential to increase Europe's competitiveness and overall positioning in the global context. The authors find them in ten policy domains, from contract law to corporate governance, taxation, control of corruption, competition policy, trade, innovation and the EU's unique approach to governing the digital economy. Uncovering and promoting hidden treasures becomes, as of today, a timely and highly needed exercise, as the EU approaches its post-elections transition, and the global governance context seems to be rapidly changing, shaping a new playing field in which Europe has no obvious allies, and is increasingly challenged by superpowers with different, if not diverging, priorities.

Grand Prize Winner of the 2015 Green Book Festival
Mark Sundeen's new book, The Unsettlers, is coming in January 2017 from Riverhead Books
In 2000, Daniel Suelo left his life savings—all thirty dollars of it—in a phone booth. He has lived without money—and with a newfound sense of freedom and security—ever since. The Man Who Quit Money is an account of how one man learned to live, sanely and happily, without earning, receiving, or spending a single cent. Suelo doesn't pay taxes, or accept food stamps or welfare. He lives in caves in the Utah canyonlands, forages wild foods and gourmet discards. He no longer even carries an I.D. Yet he manages to amply fulfill not only the basic human needs-for shelter, food, and warmth—but, to an enviable degree, the universal desires for companionship, purpose, and spiritual engagement. In retracing the surprising path and guiding philosophy that led Suelo into this way of life, Sundeen raises provocative and riveting questions about the decisions we all make, by default or by design, about how we live—and how we might live better.

After teaching sewing for years Stephanie noticed all her beginning sewing students labored with the same tendencies. She found these tendencies were discouraging the desire to continue sewing. What a sad affair to crush a persons creativity: not to mention denying the pure enjoyment garnered from taking sewing classes. Therefore, she felt compelled to list the tendencies: about 30. Actually this was just the beginning of the list. After identifying the Tendency, Stephanie wrote out a description of what was happening with each tendency calling it: The Problem. The evolution continued with answers and solutions, calling them: To Clarify. Wow! Today the number is more like 90 something. Example: many times her students had trouble taking the fabric (with the finished seam) out from under the foot. Stephanie would causally place her hand in front of the sewing machine needle and ask, "Where is your take-up lever?" When the student realized the take-up lever was hiding, Stephanie's next remark was: "Turn the hand wheel like a Waterfall until the take-up lever is at its highest point. Now you can retrieve your fabric." Stephanie provided photos and drawings on the page facing each tendency. This will help you, the reader, understand the text better. The book is mostly about operating and maintaining the sewing and serging machine. However: reading patterns, a harrowing encounter; sewing over pins, not good, and wash your stash, what ever that means. Plus, a virtual plethora of sewing mysteries are unveiled as the author leads you through her tried and true techniques of sewing, cutting and general handling of fabrics, sewing machines, hand sewing (yes you need to do hand sewing), posture is embraced (it is important), ectcetera. Stephanie is trained in tailoring, drapery making, costume creating, stuffed toy making, quilting, and pattern alteration through Nancy Zieman's Fitting Finesse. So much fabric: so little time. Study the book, take it with you to a sewing class and have fun!

Introduces the features and accessories of overlock sewing machines, and shows how to baste and sew seams, adjust stitches, and make clothing
