PILOT'S INFORMATION MANUAL - DAHER-SOCATA

A POH – Pilot Operating Handbook – is a airplane serial number specific manual produced by the manufacturer. If you look at the POH in the airplane you fly, you will see that on the first page – your N-Number, your serial number.

Flight Manual vs POH | Ask a Flight Instructor

AFM stands for Aircraft Flight Manual and POH stands for Pilots Operating Handbook. Both the AFM and POH are manuals or handouts for operation of an aircraft. Though these two are considered to be almost the same information regarding an aircraft's operation, they have slight difference between them.

Difference Between AFM and POH | Difference Between

SR-71 Online - SR-71 Flight Manual

The Airplane Flight Manual (AFM) is the handbook designed for utilization as an operating guide, much like a car manual, for the pilot. The handbook is not designed to be a substitute for adequate and competent flight instruction, knowledge of current Airworthiness Directives (ADs), and applicable FARs or Advisory Circulars (AC)

Airplane Flight Manual (AFM) - CFI Notebook

An aircraft flight manual (AFM) is a book containing the information required to safely operate the aircraft. Each AFM is tailored for a specific aircraft, though aircraft of the same make and model will naturally have very similar AFMs. The information within an AFM is also referred to as Technical Airworthiness Data (TAWD).
