## Functional Dependencies Questions With Solutions

This is likewise one of the factors by obtaining the soft documents of this **functional dependencies questions with solutions** by online. You might not require more period to spend to go to the books introduction as with ease as search for them. In some cases, you likewise attain not discover the statement functional dependencies questions with solutions that you are looking for. It will unconditionally squander the time.

However below, taking into account you visit this web page, it will be correspondingly no question simple to acquire as skillfully as download guide functional dependencies questions with solutions

# Where To Download Functional Dependencies Questions With Solutions

It will not consent many epoch as we run by before. You can realize it while accomplish something else at house and even in your workplace. fittingly easy! So, are you question? Just exercise just what we allow below as capably as review **functional dependencies questions with solutions** what you subsequent to to read!

What is Functional Dependency.

Functional dependency in DBMS, as the name suggests is a relationship between attributes of a table dependent on each other. Introduced by E. F. Codd, it helps in preventing data redundancy and gets to know about bad designs. To understand the concept thoroughly, let us consider P is a relation with attributes A and B.

Functional Dependency is represented by  
-> (arrow sign)

## Database Design Practice Questions Solution

GATE Question: Consider a relation scheme  $R = (A, B, C, D, E, H)$  on which the following functional dependencies hold:  $\{A \rightarrow B, BC \rightarrow D, E \rightarrow C, D \rightarrow A\}$ .

What are the candidate keys of  $R$ ? [GATE 2005] (a) AE, BE (b) AE, BE, DE (c) AEH, BEH, BCH (d) AEH, BEH, DEH.

Answer:  $(AE)^+ = \{ABECD\}$  which is not set of all attributes. So AE is not a candidate key.
