This novel by comedian Ben Elton tackles some very controversial but prominent issues and although written in 1991, they are still just as relevant today, (although thankfully a few things have improved).

~~Gridlock by Ben Elton — Goodreads~~

Ben Elton's offering of humour disguised as reality was highly hilarious in this novel. Gridlock is about the UK literally gridlocking itself with cars on the road. No one wants to take public transport because it is unreliable and smelly! No one wants to walk when they can get to places on their fat butts so much faster!

Gridlock is when a city dies. Killed in the name of freedom. Killed in the name of oil and steel. Choked on carbon monoxide and strangled with a pair of fuzzy dice.

~~Gridlock by Ben Elton — Fantastic Fiction~~

Insofar as the theme really is gridlock, Ben Elton used an analogy in one of his comedy acts that has stuck with me since I heard it. To try to cope with gridlock on the roads by building more and more roads, said he, is like solving the problem of an overflowing kitchen bin by buying a second bin. What does this 'solution' leave us with?
