Halfords Guide Coat is a professional quality product designed to assist in creating a perfectly level surface when sanding. The product is applied as a light mist over filler or primer and dries within minutes. Low spots will be highlighted by the presence of the guide coat during sanding, enabling re-filling and a professional quality repair.

Halfords Guide Coat | Halfords UK

Typically we use a black guide coat over the gray primer. After the guide coat is applied, we will use long sanding blocks to sand the guide coat off. What will happen is that the guide coat will sand off of the high spots, and will stay in place in any low spots. This will allow us to see any imperfections. If the low spots are low enough we will use a glaze to very lightly build up the surface. Then we will prime, sand and guide coat again.
