because the wind
cools your
engine as you
ride. But when
you're stuck in
traffic, the
cooling stops.
The slower you
go, the more
your engine
suffers. That's
why smart Harley
owners install a

Engine Fan Kits

I poked around
on the forum and
couldn't find
anything about
the Harley
Davidson

Coolflow engine
cooling fans.

Sorry if this is
a rehash. When I
bought my bike,
it had Lovejugs

on it. During
the summer it
did keep the
engine cooler,
but the heat on
my right leg was
most
uncomfortable,
and after a
while I took it
off.
