Gravel around your home is a great deterrent, as it makes it harder for burglars to approach without alerting the occupant. Make sure hedges are trimmed back so your property is not hidden from view. Do some defensive gardening – plant shrubs with thorns at the borders of your home so burglars aren't able to hide in them.

Best smart home security systems for protecting your home
Personal alarms and security systems (telecare) are devices that call for help if you, or someone you know, falls or has a problem at home. They range from basic alarms to intercom systems that allow family members to see who's knocking at your door. For example, they can be triggered if: you fall over or out of bed; you have a fit; you wander off or get lost; the room is too hot or too cold; Basic alarms.
