I exited, and carried out a manual tune, scanned in the suggested frequency, and 'Brit Shorts' and other channels became available. I saved them, and checked the quality and signal, both at 90%. Tried the Freesat scan again, with 5 different (and correct!) postcodes, and again, the dreaded 'invalid postcode' message.

Humax / No.1 subscription-free set-top box brand in the UK

Box has frozen or is unresponsive. If your box freezes, please turn it
off at the mains and wait for thirty seconds before restarting. If
this doesn't resolve it, and you are able to access the menu, the next
step would be to try a factory reset via the setting menu.

I'm having a problem with my Humax box / Freesat

To get Freesat in more than one room, you'll need a Freesat box or TV
with Freesat built in for each room you want to receive Freesat in,
attached to a single satellite dish. Depending on the age of your
dish, in order to support more than one box, your LNB (the protruding
antenna of the dish) may need to be upgraded to support multiple
cables.
