Ice is a novel by Anna Kavan, published in 1967. Ice was Kavan's last work to be published before her death, the first to land her mainstream success, and remains her best-known work. Generally regarded as genre-defying, it has been labelled a work of science fiction, Nouveau roman, and slipstream fiction.

Anna Kavan was born "Helen Woods" in France on April 10, 1901 to wealthy expatriate British parents. Her initial six works were published under the name of Helen Ferguson, her first married name. These early novels gave little indication of the experimental and disturbing nature of her later work.
