Inspired by the medical-rounds model used by physicians, the authors of Instructional Rounds in Education have pioneered a new form of professional learning known as instructional rounds networks. Through this process, education leaders and practitioners develop a shared understanding of what high-quality instruction looks like and what schools and districts need to do to support it.

Instructional Rounds in Education: A Network Approach to ...

Instructional rounds is a process that school districts and schools use to better understand teaching and learning in schools in order to improve learning at scale. In an instructional rounds session, a group of educators from perhaps 20 to 40 in size makes a series of visits to classrooms to observe what is taking place in the instructional core. Low inference observation notes are taken about a learning problem identified by the school being observed. The observation notes are used to create a

Instructional Rounds in Education: A Network Approach to ...

In instructional rounds, the front-line work of improving classroom practice becomes everyone's work. Drawing upon their experience in thousands of classrooms across the country, the authors provide clear direction to teachers, principals, central-office staff, superintendents, and others interested in forming school- or district-based networks with a laser-like focus on instruction.

Instructional Rounds in Education - HEPG

Instructional Rounds in Education By Elizabeth A. City, Richard F. Elmore, Sarah E. Fiarman, and Lee Teitel Chapter 1: The Instructional Core • In its simplest terms, the instructional core is composed of the teacher and the student in the presence of content.

Instructional Rounds in Education

The Art & Science of Teaching / Making the Most of Instructional Rounds. Instructional rounds are one of the most valuable tools that a school or district can use to enhance teachers' pedagogical skills and develop a culture of collaboration. The goal of instructional rounds isn't to provide feedback to the teacher being observed, although this is an option if the observed teacher so desires.

Making the Most of Instructional Rounds - Educational ...

Instructional rounds – a practice adapted to education from the field of medicine – offers a structure for educators to work together to identify and solve common problems related to learning and teaching. The model has been used within schools, across schools, and across districts to raise the quality of instruction for all students.

Instructional Rounds - Harvard Graduate School of Education

What Are Instructional Rounds? Instructional rounds are a disciplined way for educators to work together to improve instruction (City, Elmore, Fiarman, & Teitel, 2009). The practice combines three common elements of improvement: classroom observation, an improvement strategy, and a network of educators.

Learning from Instructional Rounds

INSTRUCTIONAL ROUNDS PHASE 1 PHASE 2 PHASE 3 PHASE 4 School identifies a 'problem of practice' as the focus for the observations • often presented as a question to frame data gathering Observation groups collect data related to the identified 'problem of practice' • groups of 3-5 teachers • typically facilitated by a school leader

Instructional rounds offers a powerful approach to improving instruction and learning. Instructional rounds is quite different than walkthroughs and is not about teacher evaluation.

Classroom & Teacher Evaluation | Instructional Rounds Plus

Instructional Rounds is a networked approach to learning and leading change. It's based on the book, "Instructional Rounds in Education" by City, Elmore, Fiarman and Teitel. Each round follows a set process and allows our school to set a problem of practice, engage in professional reading, make observations without judgement, develop findings and propose recommendations. Please see the attached link for more information about our Instructional Rounds

Instructional Rounds - THORNLEIGH WEST PUBLIC SCHOOL

Instructional rounds is a powerful form of professional learning aimed at helping schools and systems develop the capacity to educate all children to high levels.

Leading Instructional Rounds in Education

Instructional rounds The basic process is relatively simple. A network of superintendents, principals, teachers, and central office staff agree to meet at regular intervals, usually monthly, each time at a different school. They spend the morning circulating around classrooms, observing the teaching and learning that takes place there.

Treating the "Instructional Core": Education Rounds ...

Instructional rounds involve teachers, local authority specialists and others, working in mixed teams, with networks of schools and in consultation with academic partners, to build and share best professional practice. They spend time in classrooms, looking at teaching in fine detail.
