This book makes use of the LISP programming language to provide readers with the necessary background to understand and use fuzzy logic to solve simple to medium-complexity real-world problems. It introduces the basics of LISP required to use a Fuzzy LISP programming toolbox, which was specifically implemented by the author to “teach” the theory behind fuzzy logic and at the same time equip readers to use their newly-acquired knowledge to build fuzzy models of increasing complexity. The book fills an important gap in the literature, providing readers with a practice-oriented reference guide to fuzzy logic that offers more complexity than popular books yet is more accessible than other mathematical treatises on the topic. As such, students in first-year university courses with a basic tertiary mathematical background and no previous experience with programming should be able to easily follow the content. The book is intended for students and professionals in the fields of computer science and engineering, as well as disciplines including astronomy, biology, medicine and earth sciences. Software developers may also benefit from this book, which is intended as both an introductory textbook and self-study reference guide to fuzzy logic and its applications. The complete set of functions that make up the Fuzzy LISP programming toolbox can be downloaded from a companion book’s website.

Land Between the Lakes Recreation Area lies in western Kentucky and Tennessee, between two huge lakes formed by dams on the Tennessee and Cumberland rivers.Some 170,000 acres bounded by 300 miles of shoreline, Land Between the Lakes is blessed with a rich variety of plant and animal life. Conceived and administrated by the Tennessee Valley Authority, it is a unique recreational experiment which has drawn admiring visitors from around the world. Frank E. Smith, director of TVA, tells the story of the transformation of submarginal land into a large-scale, multiple-use recreation facility that provides recreation and entertainment for thousands of visitors as well as producing a positive, dynamic stimulus to the continued economic development of the entire Tennessee Valley. Planned for fullest use of human and land resources, Land Between the Lakes is of utmost importance to recreational planners, conservation specialists, administrators, and to millions of Americans who seek their recreation in the out of doors.

"[Top-ranked sniper Kyle] Swanson is sent on a mission to track down two targets—one is the Cobra, the warlord who spent twenty years in prison after Swanson captured him and is now back in charge of the strong Somali underworld, vowing vengeance on the Marine; the other is the grandson of the schoolteacher who once saved his life, who has joined the Cobra’s army of terror”--

Based on True events: Saeaera’s story is the story of many young women. She fell in love and became stuck and lost herself in the process. When she finally realized that she was not being loved the way she needed to be she started to feel like it was too late. As she started to focus on loving herself more Saeaera had to figure out if she wanted to choose life or death.

This comprehensive resource provides readers with the tools necessary to perform analysis of various waveforms for use in radar systems. It provides information about how to produce synthetic aperture (SAR) images by giving a tomographic formulation and implementation for SAR imaging. Tracking filter fundamentals, and each parameter associated with the filter and how each affects tracking performance are also presented. Various radar cross section measurement techniques are covered, along with waveform selection analysis through the study of the ambiguity function for each particular waveform from simple linear frequency modulation (LFM) waveforms to more complicated coded waveforms. The text includes the Python tool suite, which allows the reader to analyze and predict radar performance for various scenarios and applications. Also provided are MATLAB® scripts corresponding to the Python tools. The software includes a user-friendly graphical user interface (GUI) that provides visualizations of the concepts being covered. Users have full access to both the Python and MATLAB source code to modify for their application. With examples using the tool suite are given at the end of each chapter, this text gives readers a clear understanding of how important target scattering is in areas of target detection, target tracking, pulse integration, and target discrimination.

Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate.
Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.

Take a look at Paul George’s 6 feet, 9-inch (2.06 m) frame and you can see that he has all of the physical tools to be a great NBA player. After spending his first seven NBA seasons with the Indiana Pacers, he joined the Oklahoma City Thunder and altered the balance of power in the league’s Western Conference. George has been named to six NBA All-Star teams, three NBA All-Defensive teams and was named All-NBA four times. He also won the league’s Most Improved Player award for the 2012 - 2013 season. With the Thunder he hopes to add an NBA title to his list of accomplishments. Each book in the Hardwood Greats series gives you the reader a close-up look at some of the very best of today’s NBA stars. The statistical leaders and championship winners go under the spotlight in a fun to read and visually interesting examination of the player’s outstanding career. Each title in this series includes color photos throughout, and back matter including: an index and further reading lists for books and internet resources. Key Icons appear throughout the books in this series in an effort to encourage library readers to build knowledge, gain awareness, explore possibilities and expand their viewpoints through our content rich non-fiction books. Key Icons in this series are as follows: Words to Understand are shown at the front of each chapter with definitions. These words are set in boldfaced type in that chapter, so that readers are able to reference back to the definitions—building their vocabulary and enhancing their reading comprehension. Sidebars are highlighted graphics with content rich material within that allows readers to build knowledge and broaden their perspectives by weaving together additional information to provide realistic and holistic perspectives. Educational Videos are offered in chapters through the use of a QR code, that, when scanned, takes the student to an online video showing a moment in history, a speech, or an instructional video. This gives the readers additional content to supplement the text. Text-Dependent Questions are placed at the end of each chapter. They challenge the reader’s comprehension of the chapter they have just read, while sending the reader back to the text for more careful attention to the evidence presented there. Research Projects are provided at the end of each chapter as well and provide readers with suggestions for projects that encourage deeper research and analysis. And a Series Glossary of Key Terms is included in the back matter containing terminology used throughout the series. Words found here broaden the reader’s knowledge and understanding of terms used in this field.

When the chance to run arrives, Beldon doesn’t think twice about escaping into the shadows of an enchanted castle locked in an eternal winter. He just wants to bury a secret. But the castle is a cold, cruel place and his host is less than welcoming. The sparks that fly between them are icy and aggressive; the tension building until one night it almost costs Beldon his life. Then things change. Beldon’s attention turns to the shadowy Beast and the mystery that surrounds him. There is a curse to be broken after all and Beldon promised to help find a mysterious figure known as Beauty. However, Beldon did not expect his secret to resurface within this frozen castle and as such he is forced to confront himself and answer one question. As he and The Beast grow closer, does he want this Beauty found?~::~~ The original draft for the community who wanted a physical copy~
