~~Remote Manual Transmission Remote Start Kit~~

To insure safe remote starting of a vehicle with a manual transmission it requires a system specifically designed to be installed into vehicle's with a manual transmission. These systems install identically to a system for automatic transmissions with the addition of a few extra outputs & connections and a manual transmission compatibility setting.

~~DIY Remote Starters — Remote Start for Manual Transmissions~~

How to Make a Remote Starter Work With a Manual Transmission . The reason that you can't start a vehicle with a manual transmission without depressing the clutch pedal is due to the clutch interlock switch. This is a switch that prevents the engine from starting until it is tripped by fully engaging the clutch pedal, so it's pretty easy to bypass.

When Perfectionist Auto Sound & Security installs a remote car starter on a manual transmission vehicle, we also use a special sensor known as a digital tilt & motion sensor. Here is what that sensor does for you: If you ask the vehicle to remote-start and, for some rare reason, it does, even though you didn't go through the proper setup procedure, this sensor has your back.

~~Manual Transmission Remote Starter: Yes We Can!~~

The issue is that most manual transmissions use mechanical shift linkage, and there's no sensor to tap into to tell if the transmission is in neutral, It is possible to install a remote starter in a car with a manual transmission, and there are even multiple ways to do it, but not all of them are particularly safe.
