All our model aircraft plans and associated parts are reasonable in price and we work hard to keep it that way. The products for the Chilton DW1 costs between £4.99 – £18.50, whilst our Farmhand starts at £7.50 and rises to £169.00, depending on the individual plan or part you choose to purchase.

~~Buy Model Planes & Aircraft Plans & Kits from Sarik Hobbies~~

A model jet engine design can vary slightly from one manufacturer to another but they all work on the same basic principle. The most common type nowadays is the centrifugal flow turbine as opposed to the lengthier axial flow turbine. The big difference between centrifugal and axial flow turbines is in the stage of air compression.

~~How An RC Model Jet Engine (Turbine) Works~~

Below are miniature self sustaining real model jet engine kits. Contains all necessary parts to build your own. Assembly required. Made from billet aluminum, 316 stainless steel and Inconel alloys. Pre-balanced inconel Compressor Wheels & Turbine wheels. All necessary items to build combustion chamber. Great for education, hobbyist.
