Mission That  
Killed Osama  
Bin Laden Mark  
Owen

On 2 May 2011, the world's most wanted man, Osama bin Laden, was killed in one of the most daring and dangerous special forces raids ever attempted. Set down at night deep inside Pakistan, SEAL Team Six's twenty-four-man assault team saw the raid go wrong right from the off. As a helicopter

crashed inside bin Laden's compound, so the team were on the back foot in enemy territory : their mission and lives imperilled... As the only account of the planning and execution of the raid by one of the soldiers in the thick of the action, No Easy Day tells the story the world waited a decade to hear, bullet by bullet.

From Mark Bowden, the  
preeminent chronicler of  
our military and special  
forces, comes *The Finish*,  
a gripping account of the  
hunt for Osama bin  
Laden. With access to  
key sources, Bowden  
takes us inside the rooms  
where decisions were  
made and on the ground

where the action unfolded. After masterminding the attacks of September 11, 2001, Osama bin Laden managed to vanish. Over the next ten years, as Bowden shows, America found that its war with al Qaeda—a scattered group of individuals who were almost impossible to track—demanded an innovative approach.

# Access Free No Easy Day The

Step by step, Bowden describes the development of a new tactical strategy to fight this war—the fusion of intel from various agencies and on-the-ground special ops. After thousands of special forces missions in Iraq and Afghanistan, the right weapon to go after bin Laden had finally evolved. By Spring 2011,

intelligence pointed to a compound in Abbottabad; it was estimated that there was a 50/50 chance that Osama was there. Bowden shows how three strategies were mooted: a drone strike, a precision bombing, or an assault by Navy SEALs. In the end, the President had to make the final decision. It was time for the finish.
