The summer of 1972, before I turned nine, danger began knocking on doors all over China. Ling lives a comfortable life with her parents in Wuhan. But when Comrade Li, one of Mao's political officers, moves into a room in their apartment, things begin to change for the worse. Ling's secure, happy world gradually begins to fall apart and Ling fears for the safety of her neighbours, and soon for herself and her family. A powerful story, told with hope and humour, of a girl growing up and fighting to survive during the Cultural Revolution.

From the author of Letters of Transit, Reading the Rails, and Appalachia Spring comes this delightful account of a journey across the People's Republic of China, in search of the men who shaped its modern history. Along the way Matthew Stevenson visits Mao's cave house in Yen-an, where Chiang was kidnapped in Xian, General Joseph Stilwell's house in Chongqing, and Sun Yat-sen's

hideouts in Guangzhou and Hong Kong. Between Beijing and Hong Kong, and many places in between, Stevenson moves around by bicycle, train, and foot, allowing him to describe the places that shaped the lives of China's founders. Of Mao's cave in Yanan, Stevenson writes: "The simple houses are dug into the side of the hill and are reached by climbing steps from the parking lot. Most have nothing more than a bed, a few chairs, a table, and a cupboard--the revolution playing out in what New Yorkers would call a 'single-room occupancy.'" The Revolution as a Dinner Party is a graceful book, full of observation and humor, that is perfect for one today thinking about China--either its past or

future. It also an accessible history of China's last hundred years and biographies of the men at the heart of the country's many conflicts.

The Cultural Revolution was a watershed event in the history of the People's Republic of China, the defining decade of half a century of communist rule. Before 1966, China was a typical communist state, with a command economy and a powerful party able to keep the population under control. But during the Cultural Revolution, in a move unprecedented in any communist country, Mao unleashed the Red Guards against the party. Tens of thousands of officials were humiliated, tortured, and even killed. Order had to be restored by the military, whose

methods were often equally brutal. In a masterly book, Roderick MacFarquhar and Michael Schoenhals explain why Mao launched the Cultural Revolution, and show his Machiavellian role in masterminding it (which Chinese publications conceal). In often horrifying detail, they document the Hobbesian state that ensued. The movement veered out of control and terror paralyzed the country. Power struggles raged among Lin Biao, Zhou Enlai, Deng Xiaoping, and Jiang Qing--Mao's wife and leader of the Gang of Four--while Mao often played one against the other. After Mao's death, in reaction to the killing and the chaos, Deng Xiaoping led China into a reform era in which capitalism flourishes and the party

has lost its former authority. In its invaluable critical analysis of Chairman Mao and its brilliant portrait of a culture in turmoil, "Mao's Last Revolution" offers the most authoritative and compelling account to date of this seminal event in the history of China.

In Three Revolutions, transportation expert Dan Sperling and his collaborators share research-based insights on potential public benefits and impacts of the three transportation revolutions of vehicle automation, shared mobility, and vehicle electrification. They describe innovative ideas and partnerships, and explore the role government policy can play in steering the new transportation paradigm toward the

public interest--toward our dream scenario of social equity, environmental sustainability, and urban livability. Three Revolutions offers policy recommendations and provides insight and knowledge that could lead to wiser choices by all. With this book, Sperling and his collaborators hope to steer these revolutions toward the public interest and a better quality of life for everyone.

'Revelatory and instructive... [a] beautifully written and accessible book ' The Times For decades, the West has dismissed Maoism as an outdated historical and political phenomenon. Since the 1980s, China seems to have abandoned the utopian turmoil of Mao ' s revolution in favour of authoritarian capitalism. But Mao and his ideas remain central to the People ' s Republic and the legitimacy of its Communist government. With disagreements and conflicts between China and the West on the rise, the need to understand the political legacy of Mao is urgent and growing. The power and appeal of Maoism have

extended far beyond China.

Maoism was a crucial motor of the Cold War: it shaped the course of the Vietnam War (and the international youth rebellions that conflict triggered) and brought to power the murderous Khmer Rouge in Cambodia; it aided, and sometimes handed victory to, anti-colonial resistance movements in Africa; it inspired terrorism in Germany and Italy, and wars and insurgencies in Peru, India and Nepal, some of which are still with us today – more than forty years after the death of Mao. In this new history, Julia Lovell re-evaluates Maoism as both a Chinese and an international force, linking its evolution in China with its global legacy. It is a story that takes us from the tea plantations of north

India to the sierras of the Andes, from Paris ' s fifth arrondissement to the fields of Tanzania, from the rice paddies of Cambodia to the terraces of Brixton. Starting with the birth of Mao ' s revolution in northwest China in the 1930s and concluding with its violent afterlives in South Asia and resurgence in the People ' s Republic today, this is a landmark history of global Maoism.
