The previously untold story of the Zenith Trans-Oceanic, the world's most romantic and expensive series of portable radios, now in a newly revised & expanded edition. Long a companion of kings, presidents, transoceanic yachtsmen and world explorers, the Trans-Oceanic was also carried into battle by American troops in three wars. Its great popularity in spite of a very high price can be laid at the feet of several generations of armchair travelers who used the shortwave capabilities of the Trans-Oceanic as a window on the world. With access to the Zenith corporate archives and their long experience as radio enthusiasts and writers for both the popular and scholarly press, Professors Bryant and Cones present the engrossing stories of the development and use of the Trans-Oceanic throughout its forty year life. They

present a wealth of never-before published photographs, documents and information concerning these fascinating radios, their collection, preservation and restoration.

A writer's reference by a New York Times editor shares fifty strategies for writing successful nonfiction narratives, in a lighthearted guide that draws on real-world examples and incorporates tales from his work in the newsroom. 30,000 first printing.

(Book). Published to coincide with the 30th anniversary of the Roland Corporation, this is the inspiring and heartfelt memoir of Ikutaro Kakehashi, a pioneering figure in electronic music instruments and the company's visionary founder. From war-torn Japan to his first watch repair business to the dawn of and subsequent enormous leaps of electronic musical instruments, Kakehashi's story is sometimes wry, sometimes touching, always wise. Through it all, Kakehashi has believed in music above else: his first priority has always been an unwavering passion for expanding the potential for artistic expression. Everyone from music aficionados to those looking for time-tested business savvy will enjoy his unique story. The book features fantastic photos throughout, including an 8-page full-color section. Ikutaro Kakehashi founded the Roland Corporation in 1972. He lives in Hosoe-cho, Hamamatsu City, Japan. Robert Olsen worked for 25 years in the international music trade before switching careers to become a college instructor and free-lance author. He lives in Northbrook, IL.

Uses comics to clarify and review the lessons on variables, expressions, terms, coefficients, etc.

(Keyboard Presents). From its roots in 1970s New York disco and '80s Detroit techno to today's international, mainstream explosion of such genres as house, trance & dubstep, electronic dance music has reshaped the popular musical landscape. This book digs deep through the archives of Keyboard magazine to unearth the insider history of the art and technology of the EDM movement, written as it happened. We hear from the artists who defined the genre (Jean Michel Jarre, Depeche Mode, Deadmau5, BT, Kraftwerk and more). Revisit the most significant synths, beatboxes, and musical tools that made the music possible, through the eyes of those who first played them. Learn the history, then the expert techniques behind the music, so you can apply the same craft to your own music and mixes.

Nearly three decades after its first printing, *Book as Artwork 1960-1972* remains a widely-cited landmark in the critical literature on artists' books. Penned by the critic and curator Germano Celant to accompany an exhibition at Nigel Greenwood Gallery in London, it was the first critical consideration of the artist's book. A bibliography lists over 300 historic artist-produced publications from this golden age of the medium.
