More than 100,000 entrepreneurs rely on this book for detailed, step-by-step instructions on building successful, scalable, profitable startups. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you: • Avoid the 9 deadly sins that destroy startups' chances for success • Use the Customer Development method to bring your business idea to life • Incorporate the Business Model Canvas as the organizing principle for startup hypotheses • Identify your customers and determine how to "get, keep and grow" customers profitably • Compute how you'll drive your startup to repeatable, scalable profits. The Startup Owner's Manual was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product.

This is a user-friendly textbook that covers qualitative, quantitative and social media methods, providing tourism, hospitality and events students and course leaders with an accessible guide for learning and teaching marketing research. The book contains essential information on how to conduct research on visitor trends, experiences, preferences and lifestyles, shedding light on customer preferences, product changes, promotional efforts and pricing differences to ensure the destination is successful. It offers guidance on how to write, conduct and analyze the results of surveys, or use qualitative methods such as focus groups, interviews, projective techniques and observation. It also illustrates how social media can be used as a new means to determine visitor preferences by analyzing online data and conversations. Other content includes suggestions and examples on turning research data into actionable recommendations as well as advice on writing and presenting the final report. Integrated with a wide range of case studies per chapter, this short and accessible textbook is essential reading for all students wishing to gain knowledge as to what visitors want from the travel, hospitality and/or event experience.
