Transmission Conversions / TREMEC Solutions & Kits ...

The Ford versions of the T-5 will adapt easily to the earlier Ford three- and four-speed manual bellhousings by an adapter plate which enlarges the metric mounting bosses to 1/2-inch diameter, and adds 3/4-inch in spacing. Installation of a T-5 into an earlier Ford product is fairly easy, because of the bellhousing similarities.

Even though the shifter is further forward, it still is about six inches rear of the original Model-A shifter once the conversion is done. T5 transmissions are synchromesh in all gears and high gear is 0.72:1, a nice 38% reduction of RPMs while cruising. My transmission had the 14-spline input, but some of these T5s have a different spline count.
